

ADMISSIONS

Electromechanics Course

The Electromechanics Course is a 3-year multi-skill technician programme for secondary school leavers made up of Mechanical, Electrical, Electronics and Industrial Automation components.

As a requirement to graduate from this programme, there is a mandatory period of industrial attachment in the Institute's Partner-Companies.

There is strong emphasis on work ethics throughout the course.

Certifications:

At the end of the program, IIT's certificate of proficiency in Electromechanics will be awarded to successful student-trainees.

IIT is an examination centre for National Technical Certificate (Modular) of NABTEB

100% of IIT Graduates have gained employment in reputable organizations upon graduation.

The Moral formation given in IIT is entrusted to the prelature of Opus Dei, an institution of the Catholic Church. The course is open to target beneficiaries irrespective of their Ethnic or Religious affiliations.
